

Dear Parents,

This **Friday, April 23**, Our Lady of Sorrows will be partaking in Earth day. Students are asked to come dressed down in earth colours (blue, green, brown...). Students will be participating in various grade activities throughout the day. The whole school will participate in a “Zero Waste Challenge”. We ask that students attempt to limit the amount of garbage thrown out. Therefore, students may be bringing home wrappers to dispose of at home. Some grades will also be limiting their water and electricity use such as turning off the lights, limiting Chromebook use, and monitoring how much water they are using at taps. Students will also bring home flower seeds that you can plant with them. The purpose of these exercises is to encourage students to think about the small changes they can make to help keep Earth healthy. God calls us all to be stewards of the earth and kids will be learning ways in which they can do their part.

We thank you in advance for your participation in this years Earth day challenge.

Sincerely,

Leadership council.
